

# Calling All Men of the Flagship!

The Men of the Flagship initiative was created to cultivate a safe space for COAS men to connect, network, and support one another. This safe space will allow COAS men the opportunity to openly express themselves, share experiences, and build meaningful connections. All COAS men are welcome to participate in this inclusive and affirming environment

# Inaugural Event

## COAS Men of the Flagship

### The First Safe Space

Featuring...

**DR. SIDNEY NELSON III**

Co-Owner of  
World Healthcare

**BRIAN INGE**

CEO/Founder of Inge  
Consulting Group

**SHAWN TOWNSEND**

President of RAMW

On Wednesday, April 17th, 2024 the Men of the Flagship held the inaugural “First Safe Space” event. Our amazing speakers cultivated an environment that welcomed open dialogue for participants to express their feelings, and experiences. They promoted mental health awareness, emotional well-being, and personal and professional growth by encouraging honest conversations and mutual support.

Participants were also able to network with our speakers and one another to build meaningful connections. We look forward to the next engaging safe space event hosted by the COAS Men of the Flagship!
